Made In Canada
Door Hardware Assembly

1. [Image of door hardware part 1]
2. [Image of door hardware part 2]
3. [Image of screw being inserted]
4. [Image of door handle being installed]
5. [Image of assembled door]

Steps:
1. Locate the mounting holes on the door.
2. Insert the screws into the holes.
3. Attach the lock mechanism to the door using the screws.
4. Install the door handle onto the lock mechanism.
5. Ensure all components are securely fastened and functional.
